

Penguin Headband

Make your own penguin headband and have a penguin party!

Instructions

1. Cut out the wave patterns.
2. If you printed the pages in color, tape the two wave patterns together to make a long, continuous headband.
3. If you printed the pages in black and white, place the wave shapes side-by-side on a strip of blue construction paper and trace and cut around them to create a long, continuous headband.
4. Color and cut out the penguin shapes, add any fabric decorations to the crown in a flowing manner so they look like water.
5. Glue your penguins to the headband, spacing them toward the front.
6. Measure your headband to fit your head, and then tape or glue it to fit.
